## Summary

Front-End Developer with over 2 years of hands-on experience in web development, proficient in HTML, CSS, JavaScript, and modern frameworks such as React. Adept at creating responsive, user-friendly interfaces that meet client specifications while ensuring high performance and cross-browser compatibility. Seeking a challenging role where I can leverage my technical skills and contribute to impactful projects.

---

## Work Experience

### Freelance Front-end Developer

*June 2022 – Present*

- Designed and developed user interfaces for various clients, ensuring mobile responsiveness and cross-browser compatibility.
- Utilized HTML, CSS, and JavaScript to bring designs to life, focusing on user experience and accessibility.
- Troubleshoot and debugged code to ensure smooth functionality.

### Frontend Developer Internship – Itrax Academy

*July 2022 – November 2022*

- Completed a comprehensive 3-month training program in React development.
- Built and optimized single-page applications (SPAs) using React.
- Worked on real-world projects to apply theoretical knowledge, focusing on state management and component lifecycle.

### Frontend Developer – Finding From Egy

*April 2023 – June 2024*

- Full-time role focused on developing and refining the front end of web applications.
- Integrated APIs and optimized front-end performance.

- Collaborated with back-end developers to ensure seamless integration and user experience.
-
